OUR FARM TO FORK PHILOSOPHY

Supporting local and sustainable agricultural practices is one of our passions at Dante. We believe that our community benefits when we support the work of small family farms and local businesses. The myriad of food items they produce are fresher, healthier and simply taste better.

Dante works with area farmers, food artisans and producers to procure the ingredients that are featured each day on our menu. These ingredients often include, farm fresh eggs, locally grown and sustainable produce, artisan breads, handcrafted cheeses, cured and fresh meats.

If you want to get a taste of the great food our region has to offer, we invite you to visit Dante and eat at our table.
